Profile

MSc. Data Science and Analytics graduate with strong expertise in data analysis, machine learning, ETL processes, and business intelligence. Proficient in Python, SQL, Power BI, Tableau, and statistical modeling to deliver actionable insights and stakeholder-ready reports. Experienced in end-to-end analytics projects, dashboard development, and data-oriented decision-making.

Skills

Programming and Databases: Python, R, SQL, SAS, BigQuery, PostgreSQL, MongoDB, MySQL.
Visualization and BI: Power BI (DAX), Tableau, Excel, Matplotlib, Seaborn, Plotly, ggplot2.
Techniques: EDA, ETL, Data Cleaning and Wrangling, Predictive Modeling, Data Analysis, Statistical Analysis, Reporting Automation, KPI Reporting, Business Requirements Documents and Processes Mapping.
ML and Statistics: Regression, Classification, A/B Testing, Time Series, Clustering, Neural Networks.
Tools and Environments: GitHub, Jupyter, VS Code, QGIS, SEMrush, Google Workspace, RStudio.
Web and Cloud Technologies: React, Node.js, REST APIs, AWS, Azure.
Professional Strengths: Strong Problem-Solving and Adaptability, Cross-Functional Teamwork and Collaboration, Effective Interpersonal Skills, Excellent Time Management and Emotional Intelligence.

Professional Experience

Data Analytics Associate — Excellence Technology

June 2023 - July 2024 | Mohali, India

- Processed 50K+ records using Python and SQL, refining data accuracy by 80% and reducing manual effort by 45%.
- Built Power BI and Tableau dashboards to monitor KPIs, improving reporting efficiency by 85%.
- Developed ML models (regression/classification) with 90%+ accuracy, enhancing decision support by 60%.

Marketing Data Analyst — Visibility Gurus

November 2022 - May 2023 | Mohali, India

- Analyzed keyword performance and website traffic data, guiding in increasing organic traffic by 65%.
- Developed automated dashboards for campaign tracking, reducing manual reporting time by 50%.
- Executed landing page analysis through A/B testing, boosting conversions by 35%.

Business Analyst — Eminence Internet Technology

January 2022 - August 2022 | Mohali, India

- Secured and managed 20+ freelance projects via Upwork, achieving 40% conversion rate.
- Performed SQL-based analysis to validate project and revenue, enhancing reporting accuracy by 70%.
- Tracked and evaluated project metrics, improving workflow efficiency by 80% and refining strategic planning.

Education

MSc Data Science and Analytics — Maynooth University, Ireland

September 2024 – July 2025 | First Class Honours (1.1)

- Capstone Project:** AI-Based Prostate Cancer Risk Prediction Model using Python and machine learning techniques: Built CNN-based deep learning model achieving 82% accuracy for risk classification.

Bachelor of Computer Applications (BCA) — Chitkara University, India

August 2019 – July 2022 | CGPA: 9.32

- Capstone Project:** Automatic Irrigation System using Arduino C and IoT principles.

Academic Projects

- Paris Olympics Data Analysis (R):** Analyzed Paris Olympics 2024 shooting events data using R and RStudio, evaluating participation trends, gender representation, and athlete performance metrics.
- Speed Dating Experiment (SAS):** Implemented statistical analysis and hypothesis testing on speed dating experiment data using SAS to identify factors influencing mutual romantic interest.
- Geospatial Database Project (PostgreSQL):** Engineered a geospatial database using PostgreSQL and QGIS to analyse the distribution of universities, restaurants, and pharmacies in Manchester, UK.
- SyncEdge Web Application (MERN Stack):** Developed a full-stack collaborative platform with REST API integration and responsive frontend design.
